

for School Board Trustee  
**Chippewa Valley  
School Board**

**I Bring Common Sense to Spending and a Practical Approach to Leadership**

**In May 2010, Chippewa Valley school officials made cuts that directly affected classrooms** but will spend at least \$54,000 for this "special" May 2011 election. Michigan spends \$13 billion of your tax dollars on education. The solution is not taxing you more. The solution is prioritizing the spending of the resources we have and putting more of that \$13 billion into the classroom.

**Schools of Choice has become a dollar game**

Our main concern should be educating the students in our own community, not courting out-of-district students for revenue.

**Protect Bond Dollars with Careful Spending on Long Term Assets**

Bonds should only be used for major capital expenditures as repayment can run for decades. Should we borrow money and pay interest over 30 years on general maintenance items or equipment that will rapidly depreciate?

**QUALIFICATIONS**

- College Degree U of D Mercy School of Dentistry – Dental Hygiene
- Current Treasurer of the Dakota Booster Club
- Board Member of MCREST – Housing the Homeless in Macomb County

Dear Voter,

I am a 15 year resident of the Chippewa Valley School District. Together my husband and I have taught our three children to study hard and that they are responsible for doing the best they can.

I take that same philosophy as I run for the Chippewa Valley School Board election on **Tuesday, May 3, 2011**. I know it's going to take hard work and a willingness to make tough decisions in order to see our schools prepare our children so they reach their highest potential to be successful in competing in the global market.

I will fight to have more dollars go into the classroom and put our children FIRST.

I look forward to the opportunity to work diligently and conscientiously for you as your school board member.

**Please vote for me on Tuesday, May 3, 2011.**

Sincerely,

*Grace Caporuscio*
